SMARTSPACE
WEB

CATCH A GLIMPSE OF THE VIEW.

Experience motorhoming at a new level in the 2008 Winnebago View,[®] featuring the new Dodge[®] Sprinter chassis. It's the first motor home to offer adaptive ESP[®] technology that is usually reserved for luxury performance cars. ESP senses vehicle load and performance parameters to maximize handling, control and driving stability. Get the power and economy you've always wanted with a Mercedes-Benz[®] 3.0L, 6-cylinder

turbo-diesel engine or Mercedes-Benz 3.5L V6 gas engine. Both engines work seamlessly with the five-speed automatic transmission, four-wheel ABS and independent front suspension for a driving experience like no other. A longer wheelbase creates larger floorplans for an amazingly spacious and comfortable interior. Loaded with features and ready to go, the 2008 Winnebago View is your ticket to excitement.

BOLD AND BEAUTIFUL

Comfort and style blend perfectly in the Winnebago View. A 6'2" slideroom on the 24H and 24J accommodates contemporary furniture like the sofa or dinette, which convert into comfortable beds. A 19" LCD TV and a coach stereo system with a CD/DVD player provide plenty of entertainment options when relaxing after a day of adventures. The living area is easy to access from the cab, thanks to the large cab-to-coach opening coupled with the spacious overhead bunk that easily flips up and out of the way.

Step into the bathroom and you'll notice chrome fixtures, a stainless steel sink and an innovative, easy-to-clean retractable shower door. The flexible showerhead and the skylight let you shower under natural light. There's plenty of storage available in the medicine cabinet, vanity cabinet and wardrobe.

OVERHEAD BUNK At night, the bunk provides a spacious and comfortable 49" x 75" sleeping space. Gas struts lift the hinged bunk out of the way during the day for easy cab access.

SKYLIGHT The skylight creates an open and airy feel, and doubles as a fresh air vent to provide extra climate control with an easy-to-use vent handle. A sliding screen and pleated shade add to its versatility.

BATHROOM A stainless steel sink provides a contemporary look.

WEB Select a Key Feature

The **WEB** icon designates a Winnebago Industries Key Feature. For further in-depth information and photos, use the Drop-down Menu or click on the 'Key Features' page at winnebagoind.com.

WEB **SMART STORAGE** The rear bed in the 24J not only creates a comfortable sleeping space, it flips up and reveals side-by-side storage compartments. The outside compartment even expands to accept large items. It's another example of our Smart Storage™ design philosophy that maximizes usable storage space.

FULL-EXTENSION DRAWER SLIDES

Drawers are sized to maximize storage, hold tight with positive latches and open fully for easy access to stored items.

GALLEY The galley is loaded with stylish and functional amenities, including a large sink that accommodates oversized pots and pans, a refrigerator with a "punched" stainless steel facing, a range hood and plenty of storage.

A DISTINCTIVE TONE

The View sets itself apart with curved cabinetry, contemporary fabrics, available UltraLeather™ cab seats and chrome hardware guaranteed to impress. The elegant curves in the frameless cabinetry and the "punched" stainless steel refrigerator façade create a striking ambiance.

Make quick work of meal preparation and cleanup in a galley that features a large, round stainless steel sink, a three-burner range top and a microwave/convection oven. Storage is plentiful and easily accessible. The solid-wood sink cover creates additional countertop space for food preparation. The available water purification system provides filtered, cold water to the galley faucet. For maximum comfort, the View provides thermostat-controlled cabin heating and air conditioning with an available heat pump that can provide warmth without using LP. You'll also appreciate the privacy afforded by the day/night pleated shades.

BUNK BEDS

The 24B features bunk beds in the sleeping area. The bottom bunk flips up to expose a large pass-through storage compartment and recessed storage area. It's another example of Smart Storage design you'll find throughout the View.

POWER & PERFORMANCE

The Winnebago View employs the new Dodge Sprinter chassis with advanced safety features that include dual airbags, 4-wheel ABS braking, ASR traction control and a BAS brake assist system that monitors speed and pedal pressure to apply full brake boost in quick stop situations. Adaptive ESP® (Electronic Stability Program) helps drivers maintain control by measuring the vehicle's steering angle, turning rate, and acceleration to detect oversteer or understeer, and automatically applies brakes when necessary for improved traction and driving stability.

The contemporary look and feel of the View extends to the dash with controls positioned for ease of use and comfort. Cab seats with adjustable lumbar support make driving an absolute pleasure. There are even storage areas above the cab seats and a ventilated glovebox to keep things cool. You'll stay cool, too, when you dial in your desired cab temperature on the thermostat.

An available rearview monitor with one-way audio provides added peace of mind when backing or maneuvering. The exterior mirrors feature remote adjustment, a convex surface, electric defrost and turn signals.

A handy remote lets you easily play your favorite music on the Sony® dash radio/CD player. The standard dash stereo includes an auxiliary input for your MP3 player. It is also iPod ready, enabling you to listen to and control your iPod using the radio controls. Choose the Sirius® Satellite System and you can dial in crystal-clear programming anywhere in the United States with a complimentary six-month subscription.

DASH The all-new Dodge Sprinter Chassis includes upgrades like the tilt and telescoping steering wheel.

OVERHEAD STORAGE For added storage, choose the available overhead storage cabinet which is accented with rope lighting for a touch of class. Additional storage areas are conveniently tucked into the headliner.

DOOR LATCHES New storage door latches make opening and closing even easier.

SLIDING STORAGE An easy-to-use pullout storage bin seals tightly to protect your things from dirt and moisture. It even includes a drain plug that makes cleaning easier.

FLIP-OUT KEY The ignition key folds into the keyless door lock remote so it's always handy and won't poke a hole in your pocket.

COMFY SEATS The cab seats slide, recline, offer adjustable lumbar support and are available in UltraLeather.

HITCH Tow your favorite toys using the standard 3,500 lb. hitch with 350 lb. vertical tongue weight.

08 VIEW FLOORPLANS

Note: Dimensions shown are for sleeping space only and may vary due to styling differences. Dashed lines denote overhead storage areas.

24H

24J

RUNNING BOARDS Stylish steps make entering the View easy.

WEB TRU[®]LEVEL Eliminate tank-level guesswork with our exclusive TrueLevel™ holding tank monitoring system. It incorporates detector cells that determine liquid levels from outside the tank. No probes means no more corrosion, just accurate readings, time after time.

EXTERIOR SERVICE CENTERS

The exterior service centers house water, drainage facilities and an available exterior wash station. Electrical center hookups also can be found here, including a power cord with the QuickPort® service connection hatch (not available on the 24J shown here). This allows you to close the compartment door even when connected to hookups at the campground. Everything is color-coded for your convenience.

- The height of each model is measured to the top of the tallest standard feature and is based on the curb weight of a typically equipped unit. The actual height of your vehicle may vary by several inches depending on chassis or equipment variations. Please contact your dealer for further information.
- The load capacity of your motor home is designated by weight, not by volume, so you cannot necessarily use all available space when loading your motor home.
- Capacities are based on measurements prior to tank installation. Slight capacity variations can result due to installation applications.
- Capacities shown are tank manufacturer's listed water capacity (W.C.). Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.
- Actual towing capacity is dependent on your particular loading and towing circumstances which includes the GVWR, GAWR, and GCWR as well as adequate trailer brakes. Please refer to the Operator's Manual of your vehicle for further towing information.
- See separate chassis warranty.
- See your dealer for complete warranty information.

**BUILT BY WINNEBAGO INDUSTRIES.
BUILT TO LAST.**

Winnebago motor homes are built by Winnebago Industries, the company that defined motor homes. The company that built its reputation on quality construction. The company that transformed the motor home concept into a way of life.

Today, Winnebago Industries brings that reputation for quality and its 49-year history of motor home innovation to the design and construction of every motor home. It's all a part of SuperStructure[®], our exclusive system of proprietary structural components that instills each motor home with improved strength and durability.

SOLID FOUNDATION Steel and aluminum truss work provides a solid, flat foundation for the floor and sidewalls. Winnebago Industries engineers also take special care to distribute the weight of components to ensure proper handling and stability.

INTERLOCKING JOINTS

The floor, sidewalls and roof are all integrally connected using interlocking joints. This creates a coach body that acts as a cohesive unit for improved strength and durability.

E-COATING Winnebago Industries employs an exclusive 12-stage automotive-style dip tank process to apply an advanced electrodeposition coating on critical steel components for superior corrosion protection.

[WEB](#)

THERMO-PANEL[®] SIDEWALLS Invented by Winnebago Industries, Thermo-Panel construction combines a fiberglass panel, high-density, block-foam insulation and aluminum support structures to create some of the most durable, lightweight sidewalls in the industry.

ATTENTION TO DETAIL Whether it's sending every coach through a high-pressure water tunnel to check for leaks or labeling each individual wire and bar-coding parts to save time and frustration during service, Winnebago Industries considers every detail to ensure your Winnebago motor home provides you with years of pleasure.

STRONG AS STEEL Appliances are secured directly to embedded steel plates for added safety. Windshields are also mounted in steel with an automotive-style sealant; lesser designs use a rubber gasket to mount the windshield in fiberglass.

1-year-old Winnebago fiberglass roof

1-year-old competitor's rubber roof

FIBERGLASS ROOF The View features a crowned, one-piece fiberglass roof, backed with a 10-year limited parts-and-labor roof skin warranty. Fiberglass offers superior strength, attractiveness and durability over the rubber roofs found on many competitive models which can chalk, streak and degrade over time. Fiberglass also provides increased puncture and tear resistance.

TAKE A TOUR We're proud of our process, state-of-the-art facilities and the people who make Winnebago Industries number one. We invite you to visit our factory in Forest City, Iowa, for a first-hand look at the dedication and technology behind every motor home we build.

RECOGNIZED QUALITY The Recreation Vehicle Dealer Association annually rates RV manufacturers and awards the Quality Circle award to manufacturers who provide exceptional products, service and support. Winnebago Industries is proud to be the only manufacturer to receive this award every year since its inception.

COMMITTED TO SERVICE We back our motor homes with the industry's best service after the sale.

- 12-month/15,000-mile basic limited warranty
- 36-month/36,000-mile warranty on structure
- Standard 10-year limited parts-and-labor roof skin warranty
- Complimentary 24-hour roadside assistance program
- TripSaver Fast Track Parts. TripSaver guarantees that in-stock warranty parts ship directly to your dealer within 24 hours.
- National dealer service network

WIT CLUB Winnebago owners are like family. Joining the Winnebago-Itasca Travelers is a great way to meet and travel with other Winnebago enthusiasts. Members enjoy:

- Caravans and rallies
- Local and state group activities
- RV travel benefits
